

R307-101-2

2. Title: Definitions

3. Type of notice: Amend

4. Purpose of the rule or reason for the change:

These amendments move one definition (see separate filing on R307-341 in this issue), delete other unused definitions, and modify another definition. These amendments are part of revisions to rules related to the ozone maintenance plan (see separate filing on R307-110-13, R307-320, R307-325, R307-326, R307-327, R307-328, R307-332, R307-335, R037-340, R307-341, R307-342, and R307-343 in this issue.)

6. Summary of the rule change:

Several definitions are deleted because they are no longer used in any rules. In addition, the definition for "Maintenance Area" is revised to include the date when Provo City was redesignated to attainment for carbon monoxide. A correction is also made to clarify that the eastern portion of Tooele County will not be considered a maintenance area for sulfur dioxide (SO₂) until the SO₂ maintenance plan has been approved by EPA. Also the definition of "Asphalt or Asphalt Cement" is moved to R307-341 because it is the only rule that uses this definition (see separate filing on R307-341 in this issue.) These amendments are part of revisions to rules related to the ozone maintenance plan (see separate filing on R307-110-13, R307-320, R307-325, R307-326, R307-327, R307-328, R307-332, R307-335, R037-340, R307-341, R307-342, and R307-343 in this issue.)

7. Aggregate anticipated cost or savings to:

- a. State budget:** Because these revisions do not create any new requirements, no change in costs is expected to the state budget.
- b. Local government:** Because these revisions do not create any new requirements, no change in costs is expected for local governments.
- c. Other persons:** Because these revisions do not create any new requirements, no change in costs is expected for other persons.

8. Compliance costs for affected persons:

Because these revisions do not create any new requirements, no change in costs is expected for affected persons.

9. Comments by the Dept head on the fiscal impact the rule may have on businesses:

Because these revisions do not create new requirements, no change to costs is expected for businesses. (Dr. Dianne R. Nielson, Executive Director, Department of Environmental Quality)

10. Authorizing statute: 19-2-104

11. Materials incorporated by reference?

12. Public comment and hearing info: October 17, 2006 at 2 pm in Room 101 of the DEQ Building at 168 N 1950 West in Salt Lake City.

13. May become effective on: December 7, 2006

14. Keywords: air pollution, definitions
